HOW DOES GENSCRIPT SUPPORT STRUCTURAL BIOLOGY RESEARCH

L. TCHATCHOUANG¹

¹SPT Labtech Ltd. - Melbourn (Switzerland)

GenScript Biotech Corporation is a leading life science research, application service, and product provider. It applies its proprietary technology to various fields, from basic life sciences research to translational biomedical development, industrial synthetic products, and cell therapeutic solutions.

Linda, a Sales Executive from GenScript Europe will introduce GenScript Biotech and explains how GenScript can support structural biology research from a different angle.
